9th World Congress on Targeting Microbiota: Towards Clinical Revolution

October 19-21, 2022
Paris, France

Agenda
Welcome to the
9th ISM World Annual Meeting

On behalf of the International Society of Microbiota, we are pleased to inform you that the 9th Annual World Meeting on Targeting Microbiota will be held on October 19-21, 2022 at Sorbonne University in Paris, France and online.

During Targeting Microbiota 2022, we will discuss the following topics:

- Microbiota & Microbiota Dysbiosis in Diseases: Recent Advances
- Nutrition, Water and Microbiota: The Missing Link
- Immunotherapy, Antibiotic Resistance, Cancer & Microbiota: Towards Personalized Medicine
- Strategies, Innovations & Challenges to Target Microbiota Dysbiosis

Among the other hot topics that will be covered: Oral microbiota, vaginal microbiota, microbiota biofilms, retinal disorders, respiratory infections, arterial thrombosis, ischemic stroke, ageing, circadian system, depression, FMT, multi-omics, gene editing, precision medicine, cancer immunotherapy, mineral water, Mediterranean diet, weight loss…

I do believe that this would be the best future strategy for the 9th World Congress of Targeting Microbiota in 2022: a strong communication between basic, pre-clinical scientists and clinicians.

So, I hope to meet you this October to capture moments of conviviality and scientific inspiration by the many and best scientists we have in the world studying the various aspects of the microbiota.

All our warmest regards.

Prof. Peter C. Konturek
Teaching Hospital of the University of Jena, Germany
President of the International Society of Microbiota

9th World Congress on Targeting Microbiota

October 19-21, 2022
Sorbonne Universitée, Paris, France & Online

ISM 2022 Speakers

- **FMT 2022: Reorganization and Perspective**
  - Peter C. Konturek, President of ISM, Teaching Hospital of the University of Jena, Germany

- **Precision Nutrition to Modulate Gut Microbiota In Reproductive Health and Pregnancy**
  - Annalisa Terraneo, Sidra Medical and Research Center, Qatar

- **Vaginal Microbiota and Dysbiosis: Recent Advances and Perspective**
  - Gary Ventonlini, Texas Tech University, USA

- **Short-chain Fatty Acids as Modulators of Redox Signaling in Health and Disease**
  - Carmen González-Bosch, Universitat de València, Spain

- **Focal Microbiota Transplantation as an Immuno-modulatory and Anti-Infection Agent**
  -Jaroslaw Bliźniak, Medical University of Warsaw, Poland

- **Gut Microbiome and Retinal Disorders: Recent Advances and Perspectives**
  - Dimitra Skondra, University of Chicago, USA

- **Host-Microbes Mechanisms during E. coli Infections and Elicited-Induced Dysmetabolism**
  - Matteo Serino, ORCIN INSERM, France

- **Role of the Gut Microbiota in Arterial Thrombosis**
  - Christoph Reinhart-Krone, University Mainz, Germany

- **Manipulating Fiber Polysaccharide Structure to Alter Targeting to Gut Microbiota**
  - Stephen Lindemann, Purdue University, USA

- **Exploring a Healthy Human Gut Microbiota in a Mediterranean Cohort**
  - Andrés Mayo, University of Valencia, Spain

- **Proof-of-Principle Demonstration of Endogenous Circadian System and Circadian Misalignment Effects on Human Oral Microbiota**
  - Frank Scheer, Harvard Medical School, USA

- **Beneficial Effects of Natural Mineral Waters on Intestinal Inflammation and the Mucosa-Associated Microbiota**
  - Nicolas Bernier, Université Clermont Auvergne, France

- **Interpreting Microbiomes Via Multi-omics for Precision Health**
  - Nathan Price, Thorne Health Tech, USA

- **Interactions of Skin Microbiota with Chosen Plant Extracts and Natural Products**
  - Sebastian Granique, Medical University of Warsaw, Poland

- **Understanding the Heterogeneity of Host-associated Microbial Communities**
  - Lei Dai, Shenzhen Institutes of Advanced Technology, China

- **Interactions Between Epithelial Proteases And Gut Microbiota Biofilms During Intestinal Disease**
  - Jean-Paul Motta, Institute of Digestive Health Research, France

- **Microbiota & Microbial Medicine: Where We Are Now & What’s Next?**
  - Marvin Edens, Founder & Chairman of ISM’s Committee, Institut Cochin, INSERM U1016, Université de Paris, France

- **Gene Editing and Microbiome Therapy**
  - NaHa Mansour, National Research Center, Egypt

- **May the Microbiota of the Long-Lived Naked Mole-rat Effect Human Health?**
  - Gerd Birkenmeier, University of Leipzig, Germany

- **Microbiota and Drug Metabolism: Towards a Personalized Medicine**
  - Cristina Gioretti, University of Insubria, Italy

- **Gut Microbiota-Derived Extracellular Vesicles on Obesity, Diabetes and Metabolism**
  - Fermin I. Milagro, University of Navarra, Spain

- **Cancer Therapy and Microbiota**
  - Maria Cecilia Giron, University of Padova, Italy

- **The Probiotic Strain H. alvei MA149 for Weight Loss**
  - Pierre Déchelotte, Rouen Normandy University, France

- **Microbial Biomarkers to Predict Respiratory Infection**
  - Claire A. Woodall, University of Bristol, United Kingdom

- **Probiotics and FMT as Add-On Therapies for Depression**
  - André Schmidt, University of Basel, Switzerland

- **Host-Microbiota Interaction at the Mucosal Surface – Importance of a No-Man’s Land**
  - Benoit Chaussain, Institut Cochin, France

- **Oral Microbial Dysbiosis and Oral Diseases**
  - Xin Xu, Sichuan University, China

- **A Gut Commercial, Parasobacteroides distasonis, and Type 1 Diabetes Onset**
  - Emrah Atinders, Biology Department Boston College, USA

- **Influence of the gut microbiome in ischemic stroke risk and ischemic stroke outcome**
  - Miquel Lledós, Biomedical Research Institute Sant Pau, Spain

- **Targeting microbiota to increase cancer immunotherapy efficacy**
  - Bertrand Roux, University of Montreal Hospital, Canada

- **Microbial and Nutritional Influence on Endocrine Control of Growth**
  - François Leuiller, Université de Lyon, France

---

**Early Bird Registration**
August 30, 2022

**Short Oral Submission**
September 30, 2022

**Poster Submission**
October 10, 2022

**www.microbiota-site.com**
Gut Microbiota Workshop Program
October 19, 2022

How to Evaluate & Modulate Gut Microbiota?

13h50 - Welcoming of Attendees

14h00 - Session 1: Microbiota : General introduction

14h45 - Session 2: Involvement of the microbiota in gut pathologies

15h45 – Break

16h15 - Session 3: How to study microbiota?

17h00 - Session 4: How to manipulate microbial communities?

17h45 - Session 5: How to study the beneficial effects of bacterial strains for food & food supplements

Questions & Answers

End of the Workshop

Carole Nicco,
Institut Cochin - INSERM U1016, Université de Paris, France

GUT WORKSHOP
9th ISM World Annual Meeting
October 19-21, 2022
Sorbonne University, Paris, France & Online

Congress Day 1 Program
October 20, 2022

8h00 Materials Distribution & Welcome Coffee

8h50 General Introduction of 9th ISM World Congress: Vision & Gaps
Peter C. Konturek, President of ISM, Teaching Hospital of the University of Jena, Germany

9h00 - 9h20 Microbiota & Microbiotal Medicine: Where We Are Now & What's Next?
Marvin Edeas, Founder & Chairman of ISM’s Committee, Institut Cochin, INSERM, Université de Paris, France

Session 1: Microbiota & Microbiota Dysbiosis in Diseases: Recent Advances
Presentation length: 15 minutes + 5 minutes of discussion

9h20 - 9h40 Host-Microbiota Interaction at the Mucosal Surface – Importance of a No Man’s Land!
Benoit Chassaing, Institut Cochin, France

9h40 - 10h00 Short-chain Fatty Acids as Modulators of Redox Signaling in Health and Disease
Carmen González-Bosch, Universitat de València, Spain

10h00 - 10h20 Interactions Between Epithelial Proteases and Gut Microbiota Biofilms During Intestinal Disease
Jean-Paul Motta, Institute of Digestive Health Research, France

10h20 - 10h40 Understanding the Heterogeneity of Host-associated Microbial Communities
Lei Dai, Shenzhen Institutes of Advanced Technology, China

10h40 – 11h10 Coffee Break, Networking, & Poster Session
9th ISM World Annual Meeting
October 19-21, 2022
Sorbonne University, Paris, France & Online

11h10 - 11h20 Utilizing Metagenomics in Early to Late-Stage R&D
Jennifer Mackay, CosmosID Inc., USA

11h20- 11h40 Oral Microbial Dysbiosis and Oral Diseases
Xin Xu, Sichuan University, China

11h40 – 12h00 Proof-of-Principle Demonstration of Endogenous Circadian System and Circadian Misalignment Effects on Human Oral Microbiota
Frank Scheer, Harvard Medical School, USA

12h00 - 12h20 Microbial Biomarkers to Predict Respiratory Infection
Claire A. Woodall, University of Bristol, United Kingdom

12h20 – 14h00 Lunch Break, Networking, & Poster Session

14h00 - 14h20 A Gut Commensal, *Parabacteroides distasonis*, and Type 1 Diabetes Onset
Emrah Altindis, Biology Department Boston College, USA

14h20 - 14h40 Role of the Gut Microbiota in Arterial Thrombosis
Christoph Reinhardt, University Mainz, Germany

14h40 - 15h00 Influence of the Gut Microbiome in Ischemic Stroke Risk and Ischemic Stroke Outcome
Miquel Lledós, Biomedical Research Institute Sant Pau, Spain

15h00 – 15h40 Coffee Break, Networking, & Poster Session
Session 2: Nutrition, Water and Microbiota: The Missing Links

Presentation length: 15 minutes + 5 minutes of discussion

15h40 - 16h00 Precision Nutrition to Modulate Gut Microbiota in Reproductive Health and Pregnancy
   Annalisa Terranegra, Sidra Medical and Research Center, Qatar

16h00 - 16h20 Interpreting Microbiomes Via Multi-omics for Precision Health
   Nathan Price, Thorne HealthTech, USA

16h20 - 16h40 Exploring a Healthy Human Gut Microbiota in a Mediterranean Cohort
   Andrés Moya, University of València, Spain

16h40 - 17h00 Microbial and Nutritional Influence on Endocrine Control of Growth
   François Leulier, Université de Lyon, France

17h20 Short Oral Presentations of Day 1

18h30 End of Congress Day 1

20h00 Speaker’s Dinner (optional)
Congress Day 2 Program
October 21, 2022

8h25 Introduction of Day 2

Session 3: Immunotherapy, Antibiotic Resistance, Cancer & Microbiota:
Towards Personalized Medicine

Presentation length: 15 minutes + 5 minutes of discussion

8h30 - 8h50 Microbiota and Drug Metabolism: Towards a Personalized Medicine
Cristina Giaroni, University of Insubria, Italy

8h50 - 9h10 Fecal Microbiota Transplantation as an Immunomodulatory and Anti-Infective Agent
Jarosław Biliński, Medical University of Warsaw, Poland

9h10 - 9h30 Cancer Therapy and Microbiota
Maria Cecilia Giron, University of Padova, Italy

9h30 - 9h50 Targeting Microbiota to Increase Cancer Immunotherapy Efficacy
Bertrand Routy, University of Montreal Hospital, Canada

9h50 – 10h35 Coffee Break, Networking, & Poster Session
9th ISM World Annual Meeting
October 19-21, 2022
Sorbonne University, Paris, France & Online

Session 4: Strategies, Innovations & Challenges to Target Microbiota Dysbiosis

Presentation length: 15 minutes + 5 minutes of discussion

10h35 - 10h55 FMT 2022: Reorganization and Perspective
Peter C. Konturek, President of ISM from Teaching Hospital of the University of Jena, Germany

10h55 - 11h15 Probiotics and FMT as Add-On Therapies for Depression
André Schmidt, University of Basel, Switzerland

11h15 - 11h35 May the Microbiota of the long-lived Naked Mole-rat Affect Human Health?
Gerd Birkenmeier, University of Leipzig, Germany

11h35 - 11h55 Gene Editing and Microbiome Therapy
Nahla Mansour, National Research Center, Egypt

11h55 - 12h15 The Probiotic Strain H. alvei HA4597 for Weight Loss
Pierre Déchelotte, Rouen Normandy University, France

12h15 – 13h30 Lunch Break, Networking, & Poster Session

13h30 - 13h50 Host-Microbes Mechanisms during E. coli Infections and Diet-induced Dysmetabolism
Matteo Serino, CRCN INSERM, France

13h50 - 14h10 Interactions of Skin Microbiota with Chosen Plant Extracts and Natural Products
Sebastian Granica, Medical University of Warsaw, Poland

14h10 - 14h30 Gut Microbiota-Derived Extracellular Vesicles on Obesity Diabetes and Metabolism
Fermin I. Milagro, University of Navarra, Spain

14h30 – 14h50 Manipulating Fiber Polysaccharide Structure to Alter Targeting to Gut Microbiota
Stephen Lindemann, Purdue University, USA
14h50 - 15h10 Beneficial Effects of Natural Mineral Waters on Intestinal Inflammation and the Mucosa-Associated Microbiota
Nicolas Barnich, Université Clermont Auvergne, France

15h10 - 15h30 Gut Microbiome and Retinal Disorders: Recent Advances and Perspectives
Dimitra Skondra, University of Chicago, USA

15h30 – 15h50 Vaginal Microbiota & Dysbiosis: Recent Advances & Perspective
Gary Ventolini, Texas Tech University Health Sciences Center, USA

15h50 – 16h20 Coffee Break, Networking, & Poster Session

16h00 Short Oral Presentations

17h30 Concluding Remarks & Targeting Microbiota 2022 Awards

18h00 End of Targeting Microbiota 2022
