## Skin Microbiota 2015

### *Towards a New Era in Dermocosmetics*

June 17 2015 - Paris

#### Skin Microbiota 2015

June 17<sup>th</sup>, 2015  
Paris, France

Regarding recent advances showing the wide-range implication of gut microbiota in human health, the International Society of Microbiota decided to focus during one day on the most diversified ecosystem in the human body: the skin microbiota.

**Apart from its connexion with the skin immune system, can skin microbiota modulate skin homeostasis and health?**

To address this question, the Scientific Committee is pleased to announce the organization of the **First ISM Symposium on Skin Microbiota 2015: Towards on a New Era in Dermocosmetics**, on **June 17<sup>th</sup> 2015, in Paris**. The aim of the Skin Microbiota 2015 will be to discuss recent advances in skin microbiota, its characterization, its role and clinical impact. We will highlight the latest innovation targeting skin microbiota.

#### **Among Skin Microbiota 2015 sessions:**

- *Generalities on human skin microbiota*
- *Exploration of human skin microbiota*
- *Human skin microbiota as a part of human microbiota*
- *Human skin microbiota & immune system*
- *Human skin microbiota & ageing*
- *Human skin microbiota & environment*
- *Human skin microbiota & medicalized cosmetics*

#### **Call for abstracts and innovations:**

The Scientific Committee of International Society of Microbiota invites all scientists, academics and industrials to present their last advances on scientific research, devices development, formulation, sequencing products and others skin microbiota-related fields. We will welcome in particular clinical innovations (biomarkers and intervention studies).

Please be reminded that ISM wishes to in order to gather all actors in the microbiota field, through its Microbiota Platform Networking.

We hope that you will join us for this dynamic and strategic program and look forward to welcoming you in Paris.

**Chairman of the International Society of Microbiota**

## Skin Microbiota 2015

### *Towards a New Era in Dermocosmetics*

June 17 2015 - Paris

### *Preliminary Agenda*

---

#### Among speakers and topics already confirmed:

Pr. Lionel Fry, Department of Medecine, Imperial College, UK: **Skin Microbiota and Psoriasis**

Dr. Nadim Cassir, URMITE, France: **Effects of chlorhexidine on skin microbiota.**

Dr. Sara Romano-Bertrand, Université de Montpellier, France: **Overview of the Gram Negative Bacilli of the Skin Microbiota: Human Ecotypes of Environmental Bacteria**

---

7h30 Welcoming & Registration of Attendees

9h00 Introduction by Targeting Human Skin Microbiota 2015 Chairpersons

#### **Session 1 Human skin microbiota: Recent advances in 2015**

9h-10h30 How can we characterize human skin microbiota in 2015?  
Recent advances in sequencing techniques and analysis.  
How can microbiota from different niches communicate with each other?  
Why should we consider skin microbiota as our second immune system?  
Questions and Discussion

10h30 Coffee Break

#### **Session 2 Human skin microbiota & environment: consequences of stress, UV and pollution**

11h-12h Can stress influence skin microbiota?  
Can sun exposure and ultraviolet exposure influence diversity of skin microbiota?

12h-12h30 **Short Oral Presentation, upon abstract submission**

12h30 Group Picture – Lunch Break

# International Society of Microbiota

## **Session 3** Human skin microbiota: Advances and application in dermocosmetics

14h-15h30

How are ageing and skin microbiota related?  
Can antiseptics found in skin formulations impair skin microbiota?  
Can skin care products and their formulation influence skin microbiota?  
How to target axillary microbiota to prevent body odour?

15h30 *Coffee Break*

## **Session 4** Human skin microbiota & skin pathologies: innovations in medicalized cosmetics

16h-17h30

How skin microbiota vary in skin diseases?  
Focus on atopic dermatitis, psoriasis, acne and rosacea.  
Can probiotics be used to treat and/or prevent skin-related diseases?

## **17h30-18h** Short Oral Presentation, upon abstract submission

### **18h** Call for innovations on human skin microbiota

The Scientific Committee of International Society of Microbiota invites all scientists, academics and industrials to present their last advances within the area of Human Skin Microbiota on scientific research, devices development, formulation, sequencing products and other skin microbiota-related fields.

### **18h30** Discussion & Conclusion of Skin Microbiota 2015

In presence of Organizers and Speakers from scientific committee

How to standardize protocols for exploring skin microbiota?  
Can we manipulate skin microbiota?

#### **Skin Microbiota 2015 Awards:**

- ❖ Scientific Contribution Award 2015
- ❖ Young Scientific Contribution for Oral and Poster Contribution

#### **Concluding Remarks by the chairpersons**

### **19h** End of Skin Microbiota 2015
